-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings were received on May 31, 2005. These drawings are disapproved because they are not in compliance with 37 CFR 1.173. The drawing sheet containing Fig. 1 and 1A is not labeled "Replacement Sheet."

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "137" (see the amendment filed May 19, 2006).

The drawings are objected to because on September 10, 2003, Applicant submitted a marked-up copy of Fig. 3 showing reference number 180 moved from pointing to the hood of the car to the roof of the car. The Specification, at column 3, line 34, indicates that reference number 180 is the roof, not the hood. If Applicant intends to correct Fig. 3, drawings in compliance with 37 CFR 1.173 need to be submitted.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

Art Unit: 3611

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Reissue Applications

The patent sought to be reissued by this application is involved in litigation. Applicant must provide a statement regarding the current status of all prior or pending litigation. Any documents and/or materials which would be material to the patentability of this reissue application are required to be made of record in reply to this action.

Due to the related litigation status of this application, EXTENSIONS OF TIME UNDER THE PROVISIONS OF 37 CFR 1.136(a) WILL NOT BE PERMITTED DURING THE PROSECUTION OF THIS APPLICATION.

The reissue declaration filed May 19, 2006 is defective because it does not identify all the reasons for reissue. The declaration indicates to "check all boxes that apply," but only the "by reason of other errors" box has been checked. However, the patent is wholly or partly inoperative or invalid by reason of a defective specification or drawing, and by reason of patentee claiming more or less than he had the right to claim in the patent. It is unclear what the "other errors" are.

Claims 1, 2, 4-26 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The amendment filed May 17, 2010 does not comply with 37 CFR 1.173(b), (c), and (d).

Art Unit: 3611

The amendment includes the text of claims not amended or added by this amendment. Further, the status identifier of the amended claims should be “(Amended),” or “(Twice Amended),” etc., as appropriate. Further, the amendment does not include, on pages separate from the pages containing the changes to the claims, the status thereof (i.e., pending or canceled), as of the date of the amendment, of all patent claims and of all added claims, and an explanation of the support in the disclosure of the patent for changes made to the claims.

The amendment filed May 19, 2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The recitation that the scratch-resisting plastic material “extends across the bottom and over the edge of the assembly” is new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Finally, Applicant did not file a supplemental reissue oath or declaration. See MPEP 1414.01.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary C. Hoge whose telephone number is (571) 272-6645. The examiner can normally be reached on 5-4-9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Lesley Morris can be reached on (571) 272-6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
